Jl. Bunga Rampe Raya, Simalingkar B, Kec. Medan Tuntungan, Kota Medan, Sumatera Utara

A second year  student majoring in Information Technology from Del Institute of Technology who has an interest in developing skills in the field of software testing, specifically Quality Assurance. Have some experience in project assignments and internships by performing several testing methods, including manual testing and automated testing. I have expertise in creating test procedures to ensure good product quality, able to communicate well, and can work in a team. I can operate several testing tools, such as Katalon Studio, Selenium, and Test Rail. I believe that my experience and skills can make a positive contribution to the company.

## Experiences & Organization
